

Barracuda Blaster

TILE + GROUT CLEANER

TRIDENT

100% Acid Free - Industrial Tile + Grout + Multi-Surface Cleaner

Powered by SynTech®, the world's only synthetic acid, Barracuda Blaster is a super fast tile and grout cleaner that aggressively removes dirt, mildew, mold, soap scum, rust stains, calcium and lime build up from any surface.

Barracuda Blaster also removes mineral and hard water stains from windows, mirrors, and all glass surfaces along with mortar residue from tile, metal, granite, stone, and composite surfaces.

The product aggressively attacks any grease and buildup without the dangers of hydrochloric acid. Simply apply to surface, allow to stand for 30 seconds, and wipe. Our finest disinfectant, deodorizer, fungicide, and virucide ingredients are also included to kill virtually all germs on contact.

Special tension barriers keep SynTech® and our other powerful additives working at the surface so there is no concern about weakening your grout, seals, or finish. It won't hurt carpet, wood or metal trim either. It comes with a triple-zero HMIS score, making Barracuda Blaster safe on any surface, safe on skin, safe for your equipment and safe to store anywhere.

Barracuda Blaster is readily biodegradable per OECD 301D. It is non-fuming, will not corrode or rust metals, and is 100% OSHA & EPA compliant. Barracuda Blaster is classified as a non-skin irritant, making it safe and simple to use.

The formula and its ingredients meet or exceed the EPA's Safer Choice program requirements for both the safety of the environment and the user.
